Functional Requirements Document

Alert Processing - Alternative Revision Candidate

REQTRACE AI SYNTHETIC EVIDENCE

Document ID: FRD-AH-001
Revision: Rev02
Release Status: Synthetic revision candidate
Effective Date: Not specified

1. Requirement REQ-042

Requirement ID: REQ-042

When alert severity is HIGH, the system shall display the priority alert indicator and record the alert identifier.

This requirement is the relevant candidate for an observation about missing HIGH-severity indication.

2. Requirement REQ-050

Requirement ID: REQ-050

When the alert-reset command is accepted, the system shall clear the active alert indication within 1000 milliseconds.

This timing differs from Rev01. The applicable revision must be established before assessing compliance.

FICTIONAL TRAINING DATA - NOT FOR ENGINEERING APPROVAL, CERTIFICATION, SAFETY APPROVAL, AIRWORTHINESS APPROVAL, PRODUCTION RELEASE, OR OBSERVATION CLOSURE.
