Software Observation Report

OBS-052 - Alert Indication

REQTRACE AI SYNTHETIC EVIDENCE

Observation ID: OBS-052
Revision: Rev01
Status: OPEN
Severity: Major
Referenced Requirement: REQ-041
Referenced Test: Not provided
Referenced File: alert_manager.c
Referenced Function: process_alert

1. Observation Description

The observation claims that a HIGH-severity alert does not activate the priority alert indicator.

2. Referenced Requirement

The observation explicitly references REQ-041.

REQ-041 addresses diagnostic logging and does not define the HIGH-severity priority indication. Similar wording appears under REQ-042, but this observation does not reference REQ-042.

3. Traceability Concern

The applicable requirement reference must be corrected or reviewed by an authorized reviewer. The system must not silently replace REQ-041 with REQ-042 based only on semantic similarity.

FICTIONAL TRAINING DATA - NOT FOR ENGINEERING APPROVAL, CERTIFICATION, SAFETY APPROVAL, AIRWORTHINESS APPROVAL, PRODUCTION RELEASE, OR OBSERVATION CLOSURE.
