Software Test Report

TC-102 - Null Input Validation

REQTRACE AI SYNTHETIC EVIDENCE

Test Case ID: TC-102
Revision: Rev01
Requirement ID: REQ-017
Result Status: FAIL
Software Baseline: SYNTH-BUILD-01

1. Preconditions

The data-processing component is initialized.

The input pointer supplied to process_data() is NULL.

2. Procedure

Step 1: Invoke process_data(NULL).

Step 2: Record the returned status.

Step 3: Monitor whether a system exception occurs.

3. Expected Result

DATA_STATUS_INVALID_INPUT is returned and no system exception occurs.

4. Actual Result

A system exception was recorded before a valid error status was returned.

5. Result

Result Status: FAIL

The recorded result does not satisfy REQ-017.

FICTIONAL TRAINING DATA - NOT FOR ENGINEERING APPROVAL, CERTIFICATION, SAFETY APPROVAL, AIRWORTHINESS APPROVAL, PRODUCTION RELEASE, OR OBSERVATION CLOSURE.
