Software Test Report

TC-401 - Recovery Counter Baseline Test

REQTRACE AI SYNTHETIC EVIDENCE

Test Case ID: TC-401
Revision: Rev01
Requirement ID: REQ-060
Result Status: FAIL
Software Baseline: SYNTH-BUILD-04-ORIGINAL

1. Procedure

Set the recovery counter to a non-zero value.

Submit a valid recovery request.

Observe the counter before recovery processing begins.

2. Expected Result

The counter is initialized to zero before recovery processing.

3. Actual Result

The preceding non-zero counter value remained present when recovery processing began.

4. Result

Result Status: FAIL

This result applies only to the original synthetic baseline.

It is not post-correction verification evidence.

FICTIONAL TRAINING DATA - NOT FOR ENGINEERING APPROVAL, CERTIFICATION, SAFETY APPROVAL, AIRWORTHINESS APPROVAL, PRODUCTION RELEASE, OR OBSERVATION CLOSURE.
